

APPLIANZ

The Easy Way to Deploy Sage Accpac ERP

With an Applianz system from Sage, you can focus today's time and efforts on your business, not your technology, while still maintaining complete ownership and control of your investment. Applianz's patented technology provides a complete turn-key solution allowing your business the ability to deploy Sage software in minutes with no PC upgrades and virtually no downtime. Your employees can securely connect to their software from any office, with any PC and/or Mac, without the need to deploy VPN's, Terminal Services, or Citrix.

Every Applianz system comes complete with all the components needed to quickly implement your new solution including all Sage software, network hardware, all required Windows and optional SQL licenses, integrated firewall and security, free remote access software, and one year of Applianz's CompleteAssurance services providing nightly automated local and off-site system backup, lifetime hardware replacement, and disaster recovery assistance virtually guaranteeing system recovery in hours, not days.

The Applianz combination of technology and services delivers a complete cost-effective solution-in-a-box proven to reduce your organizations total cost of ownership when investing in and implementing a Sage software solution for your business!

“ We truly value our relationship with Applianz Technologies. The level of service and support we have received, along with the ease of use and stability of the Applianz systems is second to none. ”

Dr. Pat Do
Mid-America Orthopedics
